

Helping your people get free, without watching them

A short guide for pastors and ministry leaders who want to help people in their church who struggle with pornography, gently and with grace.

Why this matters in a church

Some of the people you serve carry this struggle quietly: men and women, single and married, young adults and parents. Many have never told anyone, because they are afraid of what people would think.

When a church speaks about it with grace instead of shame, people find the courage to take a first step. They need to hear that they are not the only one, that God has not given up on them, and that help is close.

"No temptation has taken you except what is common to man. God is faithful, who will not allow you to be tempted above what you are able, but will with the temptation also make the way of escape, that you may be able to endure it."

1 CORINTHIANS 10:13 (WEB)

What the app is

Christian Adult Blocker is a Christian porn blocker and recovery app for Android phones and tablets, made by Lightpath Digital in Finland.

Porn Blocker

Covers explicit sites, searches and apps before they load, and shows a Bible verse instead.

Worship Mode

A free one-tap lockdown for 1 to 3 hours that points to prayer.

Companion

An AI companion to talk to at any hour (20 messages a day free). It points to Scripture and to real people.

People who pray

An accountability partner, a moderated community and a prayer wall.

A plan to grow

Streaks, a recovery plan, journal, daily verse and Bible reading plans.

Crisis help

Crisis lines are shown straight away when someone is in danger.

What leaders never see

- **Nobody ever sees anyone's screen or browsing history.**
- There is no church dashboard and no report to leaders.

- A member chooses their own accountability partner, and that partner hears only what the member chooses to share.
- Private messages in the app are end-to-end encrypted.

So you can recommend it without becoming anyone's monitor. Your role stays pastoral: to listen, pray and walk alongside.

Cost. Free with ads (never on help or crisis screens), including the companion for 20 messages a day. Premium (€7.49 a month or €37.99 a year, local price in Google Play) unlocks every AI feature, removes the daily limit, and adds App Blocker and Strict Mode. Android only, no iPhone version.

Ways to share it in your church

From the pulpit

A short, calm mention during a sermon on grace, purity or temptation, with the QR code on screen. The announcement below takes under a minute.

Small groups

Leaders can mention it when the topic comes up, and pair it with a conversation about who each person could ask to walk with them.

Pastoral care and counselling

A practical next step to offer after someone confides in you, alongside ongoing care and, where needed, a licensed counsellor.

Men's and women's ministries

This is not only a men's issue. Women struggle too, and often feel even more alone. Offer it in both.

Parents of teenagers

Share the free guides on the website to help parents start honest conversations and protect the family's Android devices.

Recovery and prayer ministries

A daily companion between meetings: a blocker, a partner and a prayer wall for the hours when nobody else is awake.

A SUGGESTED ANNOUNCEMENT

"Many people, in every church, quietly struggle with pornography. If that is you, you are not alone, and you are not beyond God's grace. There is a free Android app called Christian Adult Blocker that blocks explicit content, gives you somewhere to turn in hard moments, and helps you walk with someone you trust. Nobody sees your screen, not even us as your leaders. Scan the code or visit christianadultblocker.com/churches. And if you would like to talk, our door is open."

Adapt the wording freely. Consider adding the name of a person people can speak to.

A few things that help

- **Lead with grace.** People respond to hope, not shame.
- **Keep it voluntary.** Never make the app a requirement, and never ask to see anyone's phone.
- **Name a safe person.** Tell people who they can talk to in your church.
- **Refer when needed.** Where the struggle is tied to anxiety, depression, trauma or other compulsions, point people to a licensed counsellor or their doctor. The app is not a therapist.
- **Take danger seriously.** If someone may harm themselves, contact local emergency services or a crisis line straight away.

"Bear one another's burdens, and so fulfill the law of Christ."

GALATIANS 6:2 (WEB)
